SUMMARY

Motivated Software Developer & Front-End Specialist with a strong foundation in computer science fundamentals, data structures, and problem-solving. Proficient in building modern, responsive web applications using **HTML5, CSS3, JavaScript, Bootstrap, and React**, alongside backend technologies including **PHP and MySQL**. Skilled in leveraging AI tools to accelerate development workflows, optimize debugging, and deliver high-quality, user-centric digital experiences.

EDUCATION

Bachelor of Computer and Information Sciences 09/2024 – Present
Zagazig University Zagazig, Egypt

- **Core Coursework:** Data Structures, Algorithms, Object-Oriented Programming (OOP), and Web Development Fundamentals.
- **Technical Proficiency:** Strong foundation in **C++** for problem-solving and **HTML/CSS/JS** for front-end structure and styling.

Web Designer - Summer Training Program 07/2026 – 08/2026
National Telecommunication Institute (NTI) in collaboration with

- Completed the intensive Web Designer module under the NTI summer training program, mastering HTML5, CSS3, Bootstrap, and JavaScript.
- Applied core front-end technologies to design and build fully responsive, interactive, and user-friendly web layouts.
- Developed and delivered a final graduation project demonstrating comprehensive front-end development skills and web design best practices.

SKILLS

C++ Programming

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms
- Problem Solving

Soft Skills

Problem-solving, Self-learning, and Technical Documentation

AI-Assisted Development

- Expert in using AI tools for code optimization and debugging.
- Leveraging AI for rapid learning, technical documentation, and workflow automation.

Back-End Development & Databases

- PHP
- Laravel Framework
- Relational Databases & MySQL
- Basic SQL queries

Front-End Development

- HTML5
- CSS3 (Responsive Design)
- JavaScript
- Bootstrap
- React

Computer Hardware & OS Maintenance

Windows OS management, BIOS configuration, and PC troubleshooting

Version Control

- Git: Version tracking, branching, and merging.
- GitHub: Repository management and project documentation.

PROJECTS

CarePoint Medical Center

Medical Clinic Management Web Application

- Developed a comprehensive medical clinic management web application featuring robust PHP backend routing and MySQL database integration.
- Implemented secure handling mechanisms including CSRF protection and role-based data flow.

- Designed responsive and user-friendly interfaces to streamline patient records and appointment tracking workflows.

Planing Force
Single-Page Academy Landing Page
- Developed a fully responsive single-page landing page for an online learning academy using HTML5, CSS3, JavaScript, and Bootstrap.
- Designed an engaging and modern user interface featuring clean layout grids, course stats sections, and interactive navigation elements.
- Optimized visual styling and layout responsiveness to deliver a seamless user experience across different screen sizes.

Roast & Co. Coffee Shop 07/2026 – 08/2026
E-Commerce Frontend Web Application
- Designed and developed a fully responsive frontend e-commerce interface for "Roast & Co." specialty coffee shop using HTML5, CSS3, and JavaScript.
- Built dynamic product grids displaying roasted coffee beans, espresso blends, and seasonal offerings.
- Implemented interactive subscription plans and customizable gift card selection screens with smooth UI navigation.
- Optimized visual hierarchy and responsive layouts to ensure a seamless shopping experience across all screen sizes.

My Portfolio
Vanilla JavaScript | HTML5 | CSS3
- • Designed and engineered a fully dynamic personal portfolio website built with standalone HTML5, CSS3, and JavaScript (ES6+). • Developed a custom light/dark theme toggle featuring elastic rope interaction driven by soft-body physics logic. • Built an interactive 3D Z-axis dynamic scroll scene for showcased projects and an isometric technology stack tower using SVG paths. • Implemented responsive mobile layouts, dynamic scroll animations, and Formspree API integration for contact messaging.
